The taste of Spain

Spain is steeped in history and rich culinary tradition. It is a land of culture and history that has passed down its cooking traditions which, together with its ancestral agricultural experience, produce authentic foods with singular quality and flavour.

Of **Spain's traditional gastronomy**, that of the Castile and León region stands apart, with lamb as one of its most traditional Castilian dishes: roast lamb, lamb chops, and roast suckling lamb are prepared in a traditional way with clay pots in wood-burning ovens.

At **DEOVINO** the quality of **Mom Lamb** preparations, cuts, and carcasses is guaranteed at our modern, 2,000 m2 facilities through a quality control process to meet the highest quality and assurance requirements.
